### **Councilmember Sherri Lightner Announces Restoration of Public Trash Cans and Collection Services at La Jolla Coastal Access Points**

SAN DIEGO --- Councilmember Sherri Lightner today announced the restoration of public trash cans and collection services to La Jolla coastal access points.

“I am pleased to have worked with the Mayor’s Office to restore this important service to coastal access points in our La Jolla neighborhoods,” Councilmember Lightner said.

“During this time of budget cuts, it’s important to find creative solutions to stretch our limited resources and create cost-neutral ways to continue to provide the critical basic services that our citizens value most, including trash cans and trash collection at our coastal access points,” Councilmember Lightner continued.

The restored trash cans are located at La Jolla coastal access points along Spindrift Drive, Marine Street, Sea Lane, Vista de la Playa and Sea Ridge Drive at Linda Avenue. The trash cans had been removed from these areas as a result of a former Council’s decision. After conducting a re-evaluation of the usage of public trash cans, these cans were relocated from other areas where trash cans were abundant. The replacement and services are being done within the current operating budget and without requiring additional funds.

“I am committed to preserving and protecting our precious beach habitat and creating a clean environment for all San Diego residents and visitors to enjoy,” Lightner concluded.

Sherri Lightner is the Councilmember for Council District One of the City of San Diego, which includes the communities of Carmel Valley, Del Mar Mesa, La Jolla, Pacific Highlands Ranch, Rancho Penasquitos, Torrey Hills, Torrey Highlands, Torrey Pines, and University City. She took office December 8, 2008.
